

Shailesh Mohan Shukla

DATA SCIENCE

Brief Details

- 📞 +91 7534962866
- ✉️ shailesh.mohan.shukla@gmail.com
- 📍 Rudrapur, Uttarakhand - 263153

Technical Skills

- Python
- C
- C++
- Java
- SQL
- MS Excel ,Word
- Power BI
- Tableau

Languages

- English
- Hindi

Profile

Analytical and detail-oriented Data Science professional with a strong foundation in Computer Science. Currently gaining hands-on experience in predictive modeling, data visualization, and statistical analysis through industry internships. Proven ability to handle complex datasets, perform customer churn analysis, and develop data-driven solutions. Committed to leveraging Python and machine learning to solve real-world business challenges.

Education

2024-PRESENT
JB Institute Of Technology, Dehradun
B.Tech (Computer Science & Engineering)

2021 – 2023
Matriculation & Intermediate
Christ Convent School, Jhansi

Experience

Machine Learning Intern – Codtech IT Solutions (Mar 2026 – Present)

Built ML models, performed data preprocessing, and collaborated on real-world AI projects. Strengthened problem-solving, teamwork, and communication skills.

Campus Ambassador – LaunchEd Global (Feb 2026 – April 2026)

Promoted skill-based programs, organized workshops, and built student networks. Developed leadership, communication, and marketing skills.

Projects

- **Quiz Management System** – Python-based system for quiz handling, scoring, and workflow automation.
- **Java Console Projects** – Built OOP-driven console apps with JDBC, exception handling, and multithreading.
- **ML Models** – Developed and evaluated machine learning models with feature engineering.
- **Data Science** – Conducted EDA, ML model building, and data visualization on real datasets.
- **Data Analysis** – Explored datasets and applied data-driven methodologies for problem-solving.
- **Tata Project** – Designed interactive dashboards and visualizations using Python, Power BI, and Tableau to convert raw data into actionable business insights.
- **Deloitte Project** – Applied data analysis and predictive modeling on real client datasets, building dashboards to support consulting and decision-making workflows.

Campus Ambassador – SmartED Innovations (Feb 2026 – Apr 2026)

Represented organization at campus level, promoted learning initiatives, and enhanced networking and outreach skills.

Data Science Intern – Cognifyz Technologies (Feb 2026 – Mar 2026)

Worked on data analysis, dataset exploration, and applied data-driven methodologies. Improved problem-solving and collaboration skills.

Machine Learning Intern – SkillCraft Technology (Feb 2026 – Mar 2026)

Built and evaluated ML models, applied feature engineering, and strengthened analytical thinking.

Data Science Intern – SaiKet Systems (Jan 2026 – Mar 2026)

Hands-on experience in EDA, ML model building, and data visualization. Enhanced technical proficiency and communication skills.

Winter Training Program – IIT Kanpur (Dec 2025 – Jan 2026)

Intensive Java training (basic & advanced). Gained expertise in OOP, multithreading, JDBC, and real-world project development.

Summer Training Program – IIT Kanpur (Jul 2025 – Sep 2025)

Focused on Python, NumPy, Pandas, Matplotlib. Completed projects on quiz management and web scraping.

Certification & Awards

- 1.**Master AI in Digital Marketing** – Gained insights into applying AI techniques for digital marketing strategies and automation.
- 2.**Power BI Micro Course** – Learned fundamentals of data visualization, dashboard creation, and business intelligence reporting.
- 3.**National IP Awareness Mission** – Acquired knowledge of intellectual property rights, patents, and their importance in innovation.
- 4.**Workshop Participation** – Attended multiple workshops enhancing technical and analytical skills in AI and data science.
- 5.**Applied Learning** – Certifications complemented practical internships, strengthening expertise in machine learning, data analysis, and backend development.
- 6.**Tata Certification** – Learned data visualization and analytics using Python, Power BI, and Tableau for business insights.
- 7.**Deloitte Certification** – Gained practical exposure to data analysis, dashboard building, and consulting workflows.
- 8.**Bharat Space Research Centre Certification** – Acquired knowledge of drone and space technology applications in defense and research.
